Ultimo's Agenda for our inner city precinct

Waste and Recycling

- Improve garbage collection;
- Introduce recycling bins in public areas such as parks;
- Lobby for coin operated shopping trolleys to avoid them being dumped outside;
- Educate tossers and involve community in efforts to keep our city clean

Noise Pollution

- Reduce construction hours;
- Reduce acceptable dB levels for noise emission from cooling towers on rooftops;
- Reduce heavy traffic, limit truck operating hours and ban semitrailers;
- Ban leaf blowers

Public Transport

- Ultimo needs improvement of its bus services

Pedestrian and Bicycle Network

- Ultimo residents have been waiting for traffic lights at Wattle and Kelly Streets intersection for some years now;
- The footbridge from Harris Street to the city across Darling Harbour is about to be changed without community consultation

Traffic

- Extend 40 km/h speed limit not only in school zones at special times but as general speed limit in all residential areas 24/7;
- Simplify confusing road signs eg No Right Turn at some hours

Ultimo Aquatic Centre

- Are residents simply getting an ordinary lap pool under a roof as recommended by former Cr Lucy Turnbull, or the leisure centre that they asked for, which includes sauna, spa, and recreational pool

Blackwattle Bay

- Move industry out, complete harbour foreshore walk;
- Extend Wentworth Park for recreational use by residents and fish market patrons
